

STATEMENT OF UNDERSTANDING POTTY TRAINING AGREEMENT FOR PRESCHOOL

In order to ensure that the CYTP is in compliance with Health and Sanitation Guidelines, all children who are placed in the Preschool Class at the Kupulau Child Development Center must be fully potty trained (special needs children will need to complete a SNERT). There will be a 2 week adjustment period allowed to help children adapt in their new environment.

In accepting this preschool spot, I am confirming that my child is completely potty trained. I understand that misrepresentation will result in having my child placed back on the waitlist until he/she is completely potty trained.
